## PERSONAL PROJECTS

2D Game Development (01/2022 - 05/2022)

- To develop the 2D Game, we had to use C (Programming Language) and SDL version 1.2. We built a controller using buttons and wires and we connected it to the game using Arduino.

Desktop Application (09/2022 - 12/2022)

- We created a Desktop Application using C++ and QT. I added an employee access card using Arduino which it connects to the database (Oracle SQL Developer) to check whether the card code exists or not.

Website Developement (01/2023 - 05/2023)

- We used HTML 5, PHP and JavaScript to build an interactive website. We created the database using XAMPP and PhpMyAdmin.
